FSC DISPUTE RESOLUTION SYSTEM

FSC-STD-01-005 (V1-0) EN FINAL VERSION

The Forest Stewardship Council (FSC) is an independent, not for profit, non-government organization established to support environmentally appropriate, socially beneficial, and economically viable management of the world's forests.

FSC's vision is where the world's forests meet the social, ecological, and economic rights and needs of the present generation without compromising those of future generations

Foreword

The FSC Dispute Resolution System provides a framework by which FSC members, certification bodies and stakeholders may resolve disputes that they may have with the FSC Board of Directors, the FSC and/or its affiliates or with FSC accredited certification bodies or their FSC certificate holders.

The framework consists of procedures which detail the process according to the nature of the dispute and the respective roles of the different parties involved in the process.

Any dispute related to the FSC Certification Scheme, including the FSC Accreditation Program, shall be treated with procedural fairness and incorporate the following guidelines:

- A person or organisation, who is the subject of a complaint or a appeal, should be given adequate notice about the proceedings.
- A person making a decision should declare any personal interest they may have in the proceedings.
- A person who makes a decision should be unbiased and act in good faith.
 He/she therefore can not be one of the parties in the case, or have an interest in the outcome.
- Proceedings should be conducted so they are fair to all the parties.
- Each party to a proceeding is entitled to ask questions and contradict the evidence of the opposing party.
- A decision-maker should take into account relevant considerations and mitigating circumstances, and ignore irrelevant considerations.

1 Basic Principles

- 1.1 Disputes should be resolved in the first place by discussion and negotiation. Formal procedures, including committees, should only be adopted as a last resort.
- 1.2 As a principle, disputes should be addressed at the lowest level possible and stakeholders are strongly encouraged to do this.
 - NOTE: Disputes not addressed initially at the lowest level possible may be forwarded to the correct instance, which may ultimately result in additional overall resolution time.
- 1.3 Any dispute related to the FSC Certification Scheme shall be treated with procedural fairness and incorporate the following guidelines:
 - 1.3.1 A person or organisation, who is the subject of a complaint, should be given adequate notice about the proceedings (including details of the complaint).
 - 1.3.2 A person making a decision should declare any personal interest they may have in the proceedings.
 - 1.3.3 A person who makes a decision should be unbiased and act in good faith. This person therefore can not be one of the parties in the case, or have an interest in the outcome.
 - 1.3.4 Proceedings should be conducted so they are fair to all the parties.
 - 1.3.5 Each party to a proceeding is entitled to ask questions and contradict the evidence of the opposing party.
 - 1.3.6 A decision-maker should take into account relevant considerations and mitigating circumstances, and ignore irrelevant considerations.
- 1.4 The parties involved in a dispute shall agree to follow the applicable procedure from below in the event of a dispute. Formal dispute resolution procedures will only come into play when any such issue has not been able to be resolved through discussion and negotiation.

2 Appeals

- 2.1 Any appeal by a CAB against an accreditation decision with regard to the status of an applicant or FSC accredited CAB shall be processed by ASI according to the procedure *ASI-PRO-20-103*.
